DETAILED ACTION

Claims 1, 4-5 and 9 are pending.

Claim Rejections - 35 USC § 112

1. The following rejection is made in the alternative to the rejections base on the prior are rejections, which follow.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1, 4-5 and 9 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure, which does not have an adequate written description. The making of the poly(3,4-ethylenedioxythiophene) is deemed critical or essential to the practice of the invention, but not included in the specification or the claim(s) is not adequately described by the disclosure.

Applicants (page 4 of the response filed September 9, 2004) state that one having ordinary skill in the art would **not** know how to make the claimed dispersions and further state that the examiner has not provided a *prima facie* case of obviousness regarding the making of the poly(3,4-ethylenedioxythiophene). Applicants improperly reference non-English language foreign references describing how said materials are made. Said references are **not** incorporated by reference.

The skilled artisan, having the originally filed specification would **not** have known how to make applicants invention as filed.

Response to Arguments

4. Applicant's arguments filed June 22, 2006 have been fully considered but they are not persuasive.

5. Applicants (page 7) indicate that the new subject matter has been deleted by does not present any reasons regarding the statements in the record (see above) or the lack of description. Said rejection under 35 USC 112 has been reinstated.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
